Malakyzia’s Right

The River Pirates of Eusia - Idea

Based out of the Duchy of Marvane given the rivers and lakes and access to the capital.

Feared by those who navigate the rivers in commerce, trade, or simple means of navigation avoiding the terrain.

Imagine siding or striking a bargain with these pirates.

Do they trade in stolen goods, trafficking beasts, magical wares, or something darker like a monster or slave trade?

Their boats bear the flag of the Eusian coat of arms crossed out with staunch white bones as they are anti-monarchy. One of their core tenets is to overthrow King Alden XV and install their “Empress” Captain Malakyzia Wavelocke.

On our way to kill Alden our greatest foe, who interrupts our path to glory, to install our rightful ruler the Empress Wavelocke Malakyzia.

Ships

Depending on the width of the river their ships might be more narrow, similar to riverboats.
